

JDR SERVICES:

IWOCS MAINTENANCE

GLOBAL SUPPORT NETWORK FOR RAPID REGIONAL RESPONSE

JDR GLOBAL OIL & GAS OFFSHORE SERVICES

JDR's global offshore installation and maintenance services supports customers throughout project planning, mobilisation, installation, repair, planned maintenance and spares. JDR's approach delivers a total product life-cycle support.

JDR's Services teams operate globally 24/7/365. The teams support JDR supplied products from strategically located bases in the USA and the UK. Each location offers access to a team of certified and fully equipped Field Service Technicians and Engineers supported by a team of office-based technical support staff and logistics.

JDR are experts in hydraulics, electrical and fibre optic testing; hydraulic power units, pumping skids; umbilical terminations; and reeler maintenance and repair services for JDR and non-JDR products.

Services**

TESTING AND CALIBRATION

Available globally to provide a system level approach to:

- Troubleshooting and fault diagnosis
- Operator and user manual review, modification, and validation
- Recommended maintenance programs

ASSET MANAGEMENT AND PRODUCT LIFE SUPPORT

Support is not exclusively for emergency repairs and does not cease after delivery. To maintain your system in the highest state of readiness and avoid vessel/rig down-time, JDR provides:

- Periodic inspections, complete with full-condition report
- Completion of any remedial repairs required during inspection
- Asset Management - managing the condition, documentation, certification and calibration of one or a fleet of systems with all of the services above plus full web access to asset records

SPARES MANAGEMENT

Strategic spares plans can identify and manage critical spares across a fleet of systems and hold them centrally as required.

STORAGE & DEPLOYMENT MANAGEMENT

If management of the IWOCs suite is not your core business, JDR can provide all of the aforementioned services at a geographically convenient location from which the unit(s) will be mobilized/demobilized and maintained to the highest standards.
