

JDR SERVICES:

OFFSHORE CABLE INSTALLATION & SUPPORT

PROVIDING THE INTEGRITY YOU NEED TO MAINTAIN OPERATIONS

JDR GLOBAL RENEWABLES OFFSHORE SERVICE

JDR's global offshore installation and maintenance services supports customers in the renewable energy sector throughout project planning, mobilisation, installation, commissioning and maintenance; providing total lifecycle support.

JDR's Services Division has a network of experienced technicians that focus on critical areas such as high voltage connector jointing and fibre optic splicing. Our Field Service Technicians and Engineers are supported by a team of office based technical support staff and logistics that ensures our people and equipment can be mobilised at short notice providing 24/7/365 coverage.

Whether it is a large turnkey project or just help and assistance, JDR are able to offer a solution to meet your requirements.

JDR is a leading provider of technology connecting the global energy industry. Our products and services enable vital control and power delivery for offshore oil & gas and renewable energy systems. The world's energy companies depend on high performing control umbilical and/or power cable systems to operate in the world's harshest environments. JDR invests in state of the art manufacturing facilities, technology and people to deliver these world class energy connection/control products and services. We have a proven track record of delivering client expectations and are totally committed to full lifecycle customer services. We achieve this through our specialist engineering teams, experienced project managers, integrated safety systems and global service network which ensures 24/7 aftermarket support.
